TISAMED

The company TISACOOOP has been dealing with import and distribution of food products and ingredients into the Serbian market for 30 years. We are located at the northern part of Serbia and given our geographic location we've been mainly focusing on the import of food products from the European Union. In addition, we also export some goods and agricultural commodities to our neighbouring countries.

Preduzeće „TISACOOOP“ već 30 godina bavi se prodajom i distribucijom prehrambenih proizvoda, sirovina kako na teritoriji Republike Srbije tako i izvozom. Naše preduzeće je locirano na severu Republike Srbije, tačnije u mestu Kanjiža, i zahvaljujući svom geografskom položaju u prvom redu se bavi uvozom mađarskih prehrambenih proizvoda. Pored toga bavimo se izvozom raznih poljoprivrednih proizvoda prvenstveno u zemlje Evropske Unije.

TISACOOP – TISAMED

Thanks to the already well-established logistics infrastructure and business contacts we have been supplying our products to most of the retail chains across Serbia, while the different types of ingredients are being sold to the largest representatives of the food industry with primary focus on the confectionary industry. All together this represents a yearly volume of 3.000 metric tons.

Based on this experience and infrastructure we started a new project in 2018 that aims to integrate the beekeepers in the northern part of Serbia (called Vojvodina) by collecting and processing their honey in a professional way. Due to this we have started the construction of a brand new processing plant that will have a yearly capacity of 1.000 metric tons and has started its operation end of 2018.

Serbia is considered to be a traditional honey producing country where next to sunflower, rapeseed, flower and acacia honey other mono floral honey can be found as well. Moreover, thanks to its high quality, the Serbian honey represents an increasing potential on the European and world markets.

This quality source of honey would like our company to merge with a newly established honey processing technology which – equipped with its own laboratory and well-constructed quality requirements – can guarantee the constant and high quality honey for our partners.

Apart from ISO 22000 and IFS requirements our aim is to acquire the HALAL and KOSHER certification as well for the honey we process.

Primarily we intend to sell the honey on the European and other foreign markets. This will be done in different packaging depending on our customers' requirements including barrel, glass jar and in HoReCa packing. Apart from the TISAMED brand that has been created by us we would be happy to create other customer label designs as well upon requirements from our partners.

TISACOOP – TISAMED

Zahvaljujući našoj dobro uhodanoj logističkoj strukturi i dobrim poslovnim odnosima snabdevama sve glavne trgovačke lance u Republici Srbiji, takođe snabdevamao najveće industrijske prerađivače, a prvenstveno konditore koje snabdevamo različitim sirovinama u količini od 3.000 tona godišnje.

Na osnovu svog dosadašnjeg iskustva i povoljnoj infrastrukturi, 2017 godine smo pokrenuli novi projekat sa ciljem integracije pčelara u severnom delu Srbije (Vojvodina) koja se odnosi na otkup i prerađu meda na jednom savremenom i profesionalnom nivou. Započeta je izgradnja novog pogona godišnjeg kapaciteta od 1.000 tona koja bi odpočela sa radom aprila 2018 godine.

U Srbiji postoji tradicija proizvodnje meda, u kojoj se proizvodi suncokretov med, med od uljane repice, cvetni i bagremov med kao i mnoge druge vrste meda. Zahvaljući prvenstveno svom kvalitetu, postoji veliki potencijal plasmana na evropskom i svetskom tržištu.

Želimo da naša kompanija iskoristi ove prirodne resurse i u kombinaciji sa najnovijom tehnologijom za prerađu meda, može svojim kupcima garantovati jedan visoki kvalitet krajnjeg proizvoda.

Da bi se utvrdili parametri kvaliteta otkupljenog meda, izgradili smo sopstvenu laboratoriju. U njoj će mo koristiti takve međunarodno priznate metode putem kojih će mo da klasificiramo razne kategorije kvaliteta meda, kako bi bili u prilici zadovoljiti potrebe naših klijenata na najprikladniji način.

Pored trenutnog certifikanog standarda sigurnosti hrane ISO 22000:2005, usaglasili smo poslovanje i sa drugim međunarodnim standardima kao što su IFS, HALAL i KOSHER.

Naša želja je prvenstveno da med plasiramo na evropsko i drugo tržište, i u zavisnosti od potreba kupaca ga isporučujemo u buradima, teglama i što je za nas vrlo bitno u HoReCa pakovanjima. U cilju toga smo i stvorili sopstveni brend pod nazivom "TISAMED" a isto smo spremni izaći kupcima u susret i izaditi njihovu robnu marku.

PRODUCTS - PROIZVODI

Product description	Net weight	Shelf life	Pcs/carton	Carton/pallet
Tisamed Acacia Honey	300g	24 months	6	290

As an integrator, our focus is not only to purchase the honey from the beekeepers, but also to bring them together and support them through information sharing, organizing training and events and also by providing different tools and raw materials required for their work.

As a result of this, we are looking for long term partnership with the beekeepers who provide us with high quality honey, while TISACOOOP will secure the reliable source of purchase and support them as an integrator.

We are assured that the honey processed and sold by us will find its place on the world market and in the very near future we can Welcome You as a partner too.

Kao integrator meda, naša kompanija se ne fokusira samo na otkup meda, već na pružanje podrške pčelarima putem razmene informacija o pčelarstvu, organizovanju treninga, organizovanju sastanaka sa pčelarima i pružanju pomoći u obezbeđivanju raznih sirovina i materijala neophodnih za pčelarstvo.

U skladu sa tim želimo da sklopimo dugoročnu saradnju sa pčelarima, u kojoj će nam proizvođači obezbediti med visokog kvaliteta a s druge strana će "TISACOOOP" obezbediti pčelarima bezbedno i predvidljivo tržište i konkretne tržišne otkupne cene.

Iskreno se nadamo da će med koji izađe iz pogona "TISACOOOP" pronaći svoje mesto i na ino tržištu, kao i da će Vas ubediti svojim kvalitetom da postanete naš stalni potrošač.
